Candy Bar Paragraph

Write a paragraph describing your candy bar! Refer to your chocolate itinerary.

My chocolate mint bar has Mint in it and also swirllys. The chocolate in my candy bar is dark chocolate. I also have cream in it and the cream in it is also chocolate. The easiest ingredient in my chocolate bar is peppermint. My chocolate bar is very tasty it gets your mouth freezing cold and it has a very good after taste. It has a big crunchy wafer inside too. When you bite into my candy it feels like your left out in a blizzard and it's below zero. That's why it makes me feel good. It's a good use in the summer.

Great job

Let's see if we can combine sentences. Remember the plan!

When writing a paragraph use a topic sentence stating the name of the candy bar and then supporting it with details.
