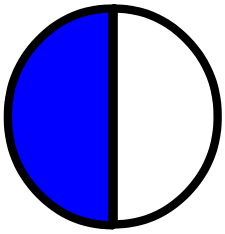
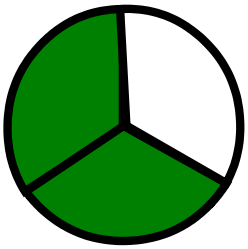
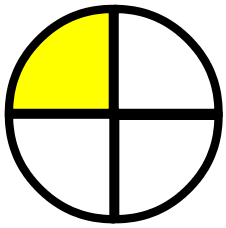
Fractions

$\frac{1}{2}$



$\frac{1}{3}$





$\frac{2}{3}$

$\frac{1}{4}$

Next

A fraction is made up of equal parts.

They are the numerator and the denominator.

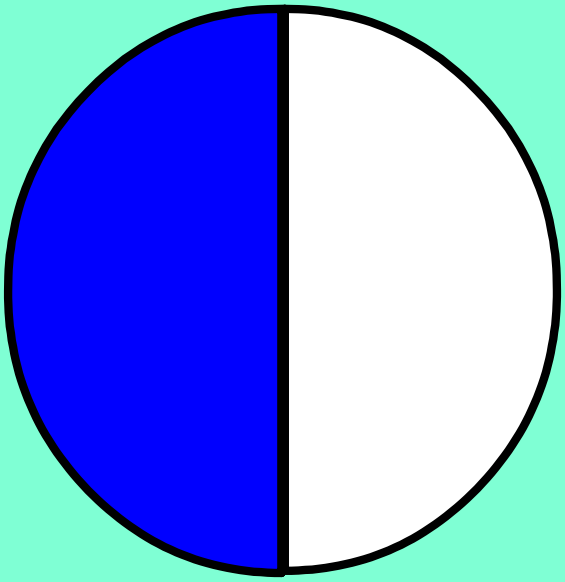
numerator $\frac{1}{2}$ denominator

The numerator tells us how many parts are shaded.

The denominator tells how many parts there are in a whole.

Next

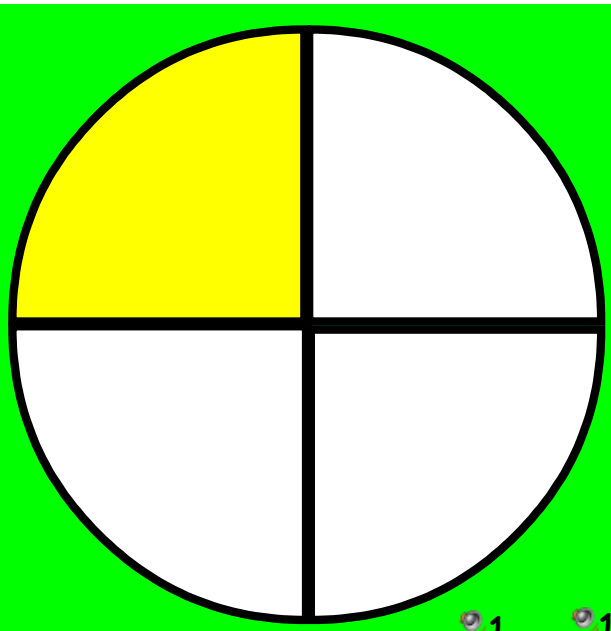
A fraction is a part of a whole.



How much of the circle is blue?

psst...use the magic eraser to find out.

Next

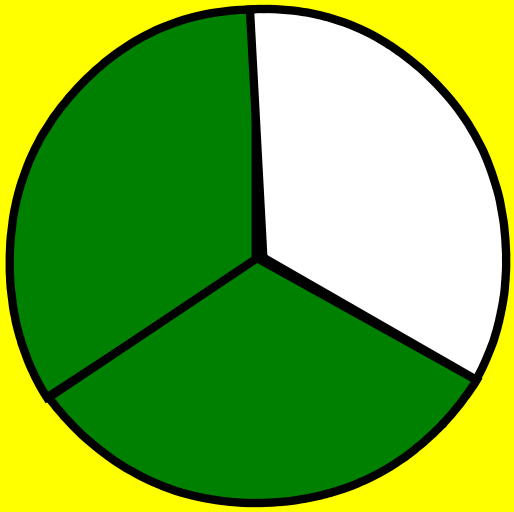


Click on the sound buttons to see which answer is correct, then pull the shade down to see why.

Next

What part of the circle is yellow? $\frac{1}{4}$ $\frac{1}{2}$ $\frac{1}{3}$

$\frac{1}{4}$ because one part is yellow and there are four parts altogether



How much of the circle is green?

$\frac{1}{3}$ $\frac{2}{3}$ $\frac{1}{4}$
