

Poetry Word Splash...Sorting/Classification

The sixteen people below are scattered about randomly. Your job is to figure out four categories in which the words can be placed. Give the whole chart a title. Then give a name to each of the categories and write those names in slots A through D on the chart. Then fill in the columns on the chart with the names that fit each category. If some names seem to fit more than one category, choose the most appropriate category so that you end up with four names in each column.

Galileo	Adolf Hitler	Buddha	Martin Luther King
Michelangelo	Henry Ford	Julius Caesar	Alexander the Great
Jesus Christ	Beethoven	Babe Ruth	George Washington
Wright Brothers	Mother Theresa	Bill Gates	Alexander Graham Bell
