

The Properties of Water: "Dead or Alive"

Name _____

Date _____

DIRECTIONS: At the end of the "Dead or Alive" task, review your water booklet and recorded information as well as your model. Decide how well you performed the task by answering the following questions. For each question, give yourself a score of 1 to 5, using this guide:

1 = I did not try hard, and I did not do a good job

2 = I tried hard, but I have to improve my work

3 = I did well, but I can do better

4 = I did very well

5 = I think that I did an excellent job

QUESTIONS

SCORE

1. How well did you collect information to do your research?

(Think about your work in your water booklet)

2. How well did you try to answer your questions with your experiments?

3. How well did you observe the things that happened?

4. How well did you keep a record of your observations?

5. How well did you do trying different ways to solve any problems that you had?

6. How well did you use tools and materials to make your model?

7. How well did your model do what you wanted it to do?

8. How well did you work with other students on your team?

9. How well did you describe your work in words and drawings?

10. How well did you describe your work in your presentation to your classmates?

TOTAL SCORE: _____
